**Italicized skills denote a beginner level of proficiency*

Personal Projects

Code Clicker (Beta) - Project Lead/Developer

Android - Released on Google Play - XML/Java - Android Studio - [Github/Git](#)

- Planned and designed the project and delegated to other team members.
- Created the full back end in Java which utilized OOP, internal storage and dynamic GUI

Food & Recipe Application - Junior Developer

Windows 8/WPF/C#/XAML - Visual Studio 2012 - BitBucket/Mercurial

Under development mentorship project where two individuals in the industry (Microsoft/ex-Amazon) served to guide me through the development process of a Recipe application. Implemented an external library which uses parsers and HTML Agility Pack/XPath to retrieve information and store it internally. Replicated tests for test driven development and helped debug anomalies in the code.

Hot Categories - Developer

Multi-Platform - Windows 8/C#/XAML & Android/Java/XML - Github/Git
ESL game for students to say words within a category with a random timer.

Education
